ANY OTHER BUSINESS THAT MAY COME BEFORE THE BOARD

The Highway Department has had a busy January, with 35 plow runs to date. We also had to do some repair work to two of our trucks, with one truck needing a new radiator, and the other a new steering hose. We have ordered 1,200 tons of salt this month and our salt barn is well stocked in the event of a big snowstorm. There are times when we have had difficulty getting parts and expect that trend to continue for quite some time. In spite of that, our main goal is to keep the roads open and accessible for safe traveling for our residents, which we strive to do each and every day. We have had some calls from residents asking what we do in the unfortunate event we hit their mailbox when we are out plowing. In order to provide clarification on our mailbox repair policy, we have posted our policy on the website, and have also included it in the most recent issue of our "Talk of the Towns" magazine. Please do not hesitate to contact the Highway Department with any questions or concerns you might have.

RESOLUTION -22: APPOINTMENT OF WALWORTH-SEELY PUBLIC LIBRARY BOARD OF TRUSTEES

Council moved the following Resolution and moved its adoption. Seconded by
Council to wit:

WHEREAS, the Walworth-Seely Public Library conducts its organizational business through a Board of Trustees; and

WHEREAS, the Walworth-Seely Public Library By-Laws, adopted on February 10, 1987 and amended on August 19, 2021, dictates that the members of the Board of Trustees be appointed by the Walworth Town Board; and

Re: Sole Source Provider for Flygt Pumps

It has been brought to our attention through LaBella Associates that if the Town of Walworth Sewer Department were to appoint Flygt / Xylem Pumps as Sole Source supplier for pumps and materials that the town will receive a 2.5% discount on all products purchased.

As the Town of Walworth utilizes Flygt pumps in all our pump stations, as well as pumping needs at the Wastewater Treatment Plant, and due to the compatibility of this product it only makes sense that the town take advantage of this offer. The savings alone for the Dewberry upgrade project that we are currently looking to undertake would be more than \$50,000.00.

I would like to ask the Town Board to consider this opportunity and pass a resolution to such.

Please do not hesitate to contact me if you have any questions.

Respectfully submitted,

Rob Burns,
Sewer Superintendent

NOW, THEREFORE IT BE RESOLVED that, based upon the recommendation of the Town Highway Superintendent and the Town Engineer, the Town Board finds that the Town can realize efficiencies and economies by standardizing its pumps and related materials as “Flygt/Xylem,” for reasons including compatibility with existing parts, the ability to “plug and play” compatible parts/pumps throughout the entire Town sewer system in the case of breakdowns and repairs, and the ability to order pumps and parts that will be compatible in advance given supply chain issues; and, be it further

RESOLVED, that the Town Board hereby determines that pumps and related supplies shall be standardized as follows: that pumps and related supplies shall, wherever possible and available, be of the brand/type: “Flygt/Xylem.”

Adopted this 3rd day of February, 2022 at a meeting of the Town Board.

Re: New pump purchase.

We have had a run of bad luck in the last 2 weeks regarding pumps and pump stations. We presently have one pump at Flygt awaiting a quote for repairs from Walworth Ontario Road Saturday morning we had two separate failures; another pump at Walworth Ontario Road which was the last Davis pump that has been in operation since 1985, and the other at the Walworth Palmyra Road pump station.

Flygt has bought Davis pumps and no longer offers parts for these repairs. We will need to purchase a new pump from Flygt to replace the Davis.

As in the past we are unable to go out to bid due to the fact Flygt pumps use proprietary rtd systems and adapting hardware, which make the placement of other brands impossible without substantial piping changes to the wet wells and to the control panels for operation.

Attached is the quote for the new pump. I am asking that this be an emergency purchase, as we presently have no spares in stock for the remaining four lift stations and looking at a 14-week lead time for this pump.

Please do not hesitate to contact me if you have any questions.

Respectfully submitted,

Rob Burns,
Sewer Superintendent
